

I herewith highly recommend the New Era Language course.

I bought the course, in order to pass the Dutch integration exam for Dutch residency permit.

Within 10 day of purchasing the course material, I had roughly spent about 50 hours studying the material, I had learnt enough Dutch to pass the exam. The oral part of the course is excellent and gives you a very good grounding in the language.

On recent trip to Holland I found it a lot easier to communicate, both understanding and speaking had improved dramatically.

I have had a very good experience and would highly recommend the course.

Best regards

Chantel Geerdes
