Dear Alan

After seeing an alarming decline in Nicola's afrikaans symbol we did some research into alternative 'extra lessons'.

The Afrikaans (stick) language course was recommended and feeling that this was the best option available, we decided to utilize the package.

The package is extremely "user friendly" and required Nicola to spend only half an hour per day listening to the CD and referring to the book.

The improvement in Nicola's grade over a three month period was remarkable.

We have no hesitation in recommending the Afrikaans (stick) package as one of the best programs available for assisting pupils to grasp the fundamentals of the language rapidly and to increase their grades significantly.

Yours sincerely

HEATHER BURSNALL
